

7 Days 7 Nights

Anna Abreu

They stand in my way
They're out of control
I've nothing to say
I want to go home
Right from the start
They've been tracking me down
They're acting so smart
Hey don't make a sound
Wanting me to do wrong
But I got to stay strong

Shut your mouth and go
Won't you leave me alone now
I'll smash your camera phone
Stay out of my private zone now
Seven days a week
Seven nights in a row
I just want to live my life and do my show
Stop pulling me down
Cause I'm starting to grow now

Asking me questions
Like they really care
Like how do you do?
And do you have an affair?
I give no reply
Am I pissing you off?
It's my private life
That you can not unlock
Wanting me to do wrong
But now I got to stay strong
Tell me where I belong

Running with their flashing lights
They try to start up crazy fights
Seven days and seven nights
Now tell me where's my freakin' rights
