

# DYNAMITE

Anna Abreu

Some say love is a roller coaster  
Say hearts they will never burn forever and  
I keep on listening cause I don't ever wanna  
Be a, a fool, but I know I'll never lose you.

When the night falls on us, we reach the dawn  
When the walls are building up, we tear 'em down,  
And when the tears they last for days we know the way  
To wash, wash, wash 'em away eh eh

Not even dynamite, dynamite,  
Could undo what I feel tonight

Cause we're made of dynamite, dynamite  
Brighter than the star light light  
Flyin higher with every ride

Not even dynamite, dynamite,  
Not even a lightning strike  
Could undo what I feel tonight

Cause we're made of dynamite, dynamite  
Brighter than the star light light  
Flyin higher with every ride

Oh oh oh oh oh  
Baby it's dynamite

Even when we look over that ledge  
look downcast cause we feel like this love is dead  
wanna know if the grass is greener if someone else is sweeter we don'  
t,  
cause we know know what we're made of.

When the night falls on us, we reach the dawn  
when the walls are building up, we tear 'em down,  
and when the tears they last for days we know the way  
to make make make make it ok kk

Not even dynamite, dynamite,  
not even a lightning strike  
could undo what I feel tonight

Cause we're made of dynamite, dynamite  
brighter than the star light light  
flyin higher with every ride

Oh oh oh oh oh  
Baby it's dynamite
