

## Stressed Out

Anna Abreu

Listen up 'cause I gotta tell you  
Where is ? I've been through?  
to make it happy, how much does it take?  
I'm not saying that I won't give up now  
That you're acting ?  
And the drama is only getting deeper  
Do you like the feeling?  
Now I'm ? sign  
Have a ? now  
I'll be ? my heart begins to feel the pressure

Stressed out, can't you see the situation?  
Stressed out, with all the aggravation  
Calm down, until complication  
This is the night  
Stressed out, another competition  
Stressed out, before your information  
Calm down, we need liberation  
This is the night

Running fast the roller coaster  
You'll be screaming 'till the ride is over  
Come and skip to the happy ending  
If I have no way  
I would never let things get higher  
Running back only ?  
Come and skip to the happy ending  
I don't really know what you see  
Now according sign  
Out of breath now  
I'll be ? my heart begins to feel the

When you feel down  
What's with that  
I don't need this love  
Stressed out  
Come around  
Calm down  
This is the night

Here we are, the stars are falling  
Here we are, in the point it's dawning  
Should you try picking up the pieces  
Or leave them on the floor
