

Walking On Water

Anna Abreu

What about the things we had
The things that burned our hearts so fast
I've been thinking 'bout this all like crazy
What about the things you said
Those things that hurt and made me sad
You know I'm letting loose on you right now babe

(No no) There ain't time for fooling
(No no) There ain't time for losing
(No no) My heart keeps yelling to let go ooh ooh oh
So what about the things we had
Is there any way to get it back
'cause I've been thinking 'bout this all so much lately

Like a child I wanted to believe
That we could work it out
Just by walking on water
But time
Keeps turning things around
As I watch you walk away in this pouring rain

(like a child) (like a child)

Never had the guts to say
So I'll better say it right away
That you've been digging this grave for us for a long time
Never had the nerve to tell
So I will tell it just to get it straight
You are losing your hold on me right now babe

Like a child, I thought that we could work it all out
By walking on water
