

# One Breath

Anna Calvi

I got one one breath to give  
I got one one second to live  
Before I say what I've got to say  
Before I break, it's gonna change everything

I got one one second to live  
Before I say what I've got to say  
Before I sing and I let out these words  
You're gonna have to reach in the dark earth  
It's gonna change everything

Heels on the highway, heels on the heart  
It's gonna change everything  
Playing on the player, fell so hard  
It's gonna change everything

I got one one breath to give  
I got one one breath to give  
Before I say it, before I say it  
Before I say it, oh

Heels on the highway, heels on the heart  
It's gonna change everything  
Play it on the player, here's to the dark  
It's gonna change everything

Heels on the highway, fingers in the dark  
It's gonna change everything
