

# Army of One

Anna Graceman

Have you heard of all those people throughout history?  
Sure you have, and that's what I want to be  
I'm standing tall to prove what is right  
So here I am to fight...

I am an army of one  
I'm not the one who is done  
You may have an army of millions,  
But I will have won!  
I am an army of one  
And now that the fight's just begun  
Taking one step at a time  
As an army of one

You may look at me and see something small  
But that's not all  
You'll discover there's so much more to me  
I can be stronger and that makes me better, I will be brave!

I am an army of one  
I'm not the one who is done  
You may have an army of millions,  
But I will have won!  
I am an army of one  
And now that the fight's just begun  
Taking one step at a time  
As an army of one

Take a good look at me  
I'm not going anywhere  
Don't stand in my way  
Cause I'm almost there!

I am an army of one  
I'm not the one who is done  
Will you stand up and fight  
As an army of one  
We are an army of one  
We've got some work to get done!  
We're taking one step at a time  
As an army of one  
As an army of one
