

## Longer and Longer

Anna Graceman

Ridin' on your road got nothing to pretend  
Saying that your life's gonna last till the end  
I've been waiting all day long for nothin'  
For it

I'm gonna make my life  
Last longer and longer  
I just don't know where to go  
Longer and Longer  
Longer and Longer  
I just don't know where to go

When it's warm and dry,  
I dreamed that I could fly  
And now it's wet cold,  
You make me feel so bold  
Take a chance fly away,  
Hope to meet you another day

I'm gonna make my life  
Last longer and longer  
I just don't know where to go  
Longer and Longer  
Longer and Longer  
I just don't know where to go

Making my life so miserable at first  
Now I can see why you're mad

I'm gonna make my life  
Last longer and longer  
I just don't know where to go  
Longer and Longer  
Longer and Longer  
I just don't know where to go

Longer and Longer  
Longer and Longer  
I just don't know where to go
