

Longer and Longer

Anna Graceman

Ridin' on your road got nothing to pretend
Saying that your life's gonna last till the end
I've been waiting all day long for nothin'
For it

I'm gonna make my life
Last longer and longer
I just don't know where to go
Longer and Longer
Longer and Longer
I just don't know where to go

When it's warm and dry,
I dreamed that I could fly
And now it's wet cold,
You make me feel so bold
Take a chance fly away,
Hope to meet you another day

I'm gonna make my life
Last longer and longer
I just don't know where to go
Longer and Longer
Longer and Longer
I just don't know where to go

Making my life so miserable at first
Now I can see why you're mad

I'm gonna make my life
Last longer and longer
I just don't know where to go
Longer and Longer
Longer and Longer
I just don't know where to go

Longer and Longer
Longer and Longer
I just don't know where to go
