

# Paradise

Anna Graceman

Fields of green, and skies are blue  
And the Salty seas, are sparkling too  
Music is my laughter, the sun shines in the sky  
I Hope you'll hear my soul sing tonight

Paradise, paradise, its a dream that I've dreamt before.  
Paradise, paradise, its a word that Ive heard of, Paradise

Birds are flying high and dogs are running fast  
I think this world is beautiful but dont know how long it will  
last

Paradise, paradise, its a dream that Ive dreamt before.  
Paradise, paradise, its a word that Ive heard of, Paradise

Sweet sandy beaches and the wild forest reaches  
Palm trees sway, hope theyll stay  
Stars are in the sky and the black, black night  
Dew drops on the flowers and the horses ride in flight

Paradise, paradise, its a dream that Ive dreamt before.  
Paradise, paradise, its a word that Ive heard of, Paradise

We all know some day it wont be the same way  
Were taking it for granted and I know that youll regret it  
Im not going to say it twice  
Cause we already live in paradise!

Paradise, paradise! Its a dream that Ive dreamt before.  
Paradise, paradise! Its a word that Ive heard of, Paradise
