

# Always

Anna of the North

I'm not the type of girl  
Who gon' mess around on ya  
Give you my loving, give you my love  
But you don't notice me,  
The spell that I'm under  
Always in the background  
There's always someone  
Hanging over your shoulder  
Watching you hold her,  
Watching you hold her  
And I'm always in the background

I'm tired of being in love  
I'm tired of being in love  
I'm tired of being in love  
I'm tired of being in love  
Always in the background

I'm not the type of girl  
Who go play around on ya  
Give you my loving, give you my love  
When you look my way,  
I sit there and wonder  
Sitting in the background  
But you don't notice me,  
The spell that I'm under  
Spell that I'm under  
And I'm always in the background

I'm tired of being in love  
I'm tired of being in love  
I'm tired of being in love  
I'm tired of being in love  
Always in the background  
Always in the background  
Always in the background  
I'm always in the background

Open, open, open, open,  
Open, open up your eyes  
Open, open, open, open,  
Open, open up your eyes

I'm tired of being in love  
I'm tired of being in love  
I'm tired of being in love  
I'm tired of being in love  
Always in the background  
Always in the background  
Always in the background  
Always in the background  
I'm always in the background

Open, open, open, open,  
Open, open up your eyes  
Always in the background  
Open, open, open, open,

Open, open up your eyes  
Always in the background
