

## Someone

Anna of the North

There's something in the water  
I can feel you getting under my skin  
I am looking for another lover  
I need someone who understands me

Two drinks down, there's something in the water, baby  
Lose control, want someone to take me home  
I lose touch, throw my arms around you, baby

I'm only human, baby  
Sometimes I act a little crazy  
I'm only human, baby  
Need someone to come and save me  
(Someone)  
(Someone)  
(To come and save me)  
(Someone)

There's something in the water  
I can feel you moving closer within me  
I don't need to find another lover  
I just need someone who understands me

Two drinks down, there's something in the water, baby  
Lose control, want someone to take me home  
I lose touch, throw my arms around you, baby

I'm only human, baby  
Sometimes I act a little crazy  
I'm only human, baby  
Need someone to come and save me (Someone)  
I'm only human, baby  
Sometimes I act a little crazy  
I'm only human, baby  
Need someone to come and save me (Someone)

Two drinks down, there's something in the water, baby  
Lose control, want someone to take me home  
I lose touch, throw my arms around you, baby

I'm only human, baby  
Sometimes I act a little crazy  
I'm only human, baby  
Need someone to come and save me  
(Someone)  
(Someone)  
So come and save me
