

## My Secret

Anna Ternheim

Today must have been one of the strangest days  
Some would say that you won't find love that way  
The best days are not planned by common sense  
By lack of time  
You just happen to be where everything feels fine

It's a new secret i have found

From today i'll change my priorities around  
I'm no longer in command, and people say  
I'm off solid ground and you're to blame  
But they don't understand, people never do  
It's confusing, i don't expect them to

It's a new secret i have found

Today must have been one of the strangest days  
I found a place where i could stay  
And people say that it will kill me,  
But they don't understand  
People never do, but it makes sense to me  
To be senseless to change my plans for you

It's a new secret i have found

And i'm off solid grounds for you
