

Words Of Love (Naked Version)

Anna Ternheim

Words of love sent by you,
Anyway you get them through
Word of love trouble me,
feels like someone's watching me

Love and hate line up close
Barbed wire around my throat
Sounds of panic in my head
When I broke it off he said;

If you try to leave
I'll never let you go
I give you my word
I always keep mine

I've erased every line you wrote
Words you stole my quotes of love
My paperbins overflow you're
You're my head and on my floor
Words of love
Words of love

Who are you,
playing with my mind like I knew you
sharing every thought,
sending words of love

If you try to leave
I'll never let you go
I give you my word
I always keep mine
