

## Words Of Love (Naked Version)

Anna Ternheim

Words of love sent by you,  
Anyway you get them through  
Word of love trouble me,  
feels like someone's watching me

Love and hate line up close  
Barbed wire around my throat  
Sounds of panic in my head  
When I broke it off he said;

If you try to leave  
I'll never let you go  
I give you my word  
I always keep mine

I've erased every line you wrote  
Words you stole my quotes of love  
My paperbins overflow you're  
You're my head and on my floor  
Words of love  
Words of love

Who are you,  
playing with my mind like I knew you  
sharing every thought,  
sending words of love

If you try to leave  
I'll never let you go  
I give you my word  
I always keep mine
