

Serenade

Anna Tsuchiya

Hush - I've heard it all before
Roses are red and I know I'm adored baby
Hush - don't play another song
Don't waste your time in the rain all night long
Loosing sleep - serenading me

Singing La lalala

Your voice sends chills down my spine
Something inside me wants you to be mine
Hands like a painter from the past
And lips that mold words into songs that will last
On my heart you'll be serenading me

Singing La lalala
