Are You Still In Love With Me

Anne Murray

I can hear the cars out on the street As I lie awake and watch you while you sleep It seems that it was only yesterday When you took my hand and carried me away

Now everyday I look at you And think of when you married me Is it still the same for you? As good as how it used to be? Oh, I wonder are you still in love with me?

Our children are the garden we have grown I see so much of you in them I know This house is filled with memories of the past When no-one thought that you and I would last

Now everyday I look at you And think of when you married me Is it still the same for you? As good as how it used to be? Oh, I wonder are you still in love with me?

Now after all this time we've been together Did you ever think the right one could be wrong? I know you said you'd stay with me forever I just can't believe your love would last so long So now I think I'll put my fears away If not for love you never would have stayed Forgive me if I feel this way again But I need to know you love me now and then

Cause everyday I look at you And think of when you married me Is it still the same for you? As good as how it used to be? Oh, I wonder are you still in love with me?

I guess I wonder why you're still in love with me
