

Sleepytime

Anne Murray

Close your eyes
It's time to dream
Of all the places that you've never seen
You can walk and you can fly
Through the wobbles and over the sky

Sleepy time baby
Now lay down your head
As if you're off to dreamland
You've got to get to bed

Move a tree or grow a flower
Build a castle just where ever you are
Make it all happen what ever you think
Just like magic you can do it in a wink

Sleepy time baby
Now lay down your head
As if you're off to dreamland
You've got to get to bed

You can be what ever you want
As tall as a giant or as small as a ant
You're favorite hero will be your best friend
And anything you want is at your command

Sleepy time baby
Now lay down your head
As if you're off to dreamland
You've got to get to bed

Sleepy time baby
Now lay down your head
As if you're off to dreamland
You've got to get to bed

Sleepy time baby
Now lay down your head
As if you're off to dreamland
You've got to get to bed
