

# Take It From My Heart

Anne Murray

I never do get used to watching you go  
We're standing in the echo of goodbye  
The pain of separation never really goes away  
And loneliness for love is one tough trade

Take it from my heart, take it from my soul  
Take this love I give you everywhere you go  
Don't need to turn around and look for me  
Cos everywhere you go is where I'll be

I never do get used to late night phone calls  
Two sad voices trying to be strong  
And if it's tearing me apart, for you I'm just as far away  
We both feel the hurt and hurt the same

Take it from my heart, take it from my soul  
Take this love I give you everywhere you go  
Don't need to turn around and look for me  
Cos everywhere you go is where I'll be

I know it's hard to see tomorrow  
But when the distance and the night come closing in  
Take it from my heart

Take it from my heart, take it from my soul  
Take this love I give you everywhere you go  
Don't need to turn around and look for me  
Cos everywhere you go is where I'll be  
Take it from my heart
