We Don't Have To Hold Out

Anne Murray

Opportunities so few and far between Chance for real love so hard to believe in Every broken heart needs some time for mending But if we wait too long this moment may be gone.

We don't have to hold out any longer
Oh it feels like this is the moment
We don't have to stay out in the cold any more
Let's just take this chance and never let it go.

All the memories, the good and bad, keep coming back The past will never leave as long as we let it last But we could let it go pack up all the make-believe Send it on its way and think about today.

We don't have to hold out any longer Oh, it feels like this is the moment We don't have to stay out in the cold any more Let's just take this chance and never let it go.

Now we could hide away Live our lives alone Thinking it's the only way But I can't let it go on any more.

We don't have to hold out any longer
Oh it feels like this is the moment
We don't have to stay out in the cold any more
Let's just take this chance and never let it go.

Let's just take this chance and never let it go...
