

# Wishing Smiles Made It All True

Anne Murray

When storms come callin'  
Let me be the one to chase any clouds that appear  
Let me be the one to hold you and tell you  
Don't worry, there's nothin' to fear

Let me be the one when the day is done  
To share your laugh and your lullaby wine  
It's a long lo-ong time till the end of time  
With so much to do makin' sweet love to you

Like a star that you wish on  
Let me be the one to know what your wishin' for  
And whenever your lo-onely let me be the one  
To come to you-ou with love

Let me be the one when the day is done  
To share your laugh and your lullaby wine  
It's a long long time till the end of time  
With so much to do makin' sweet love to you

Let me be the one when the day is done  
To share your laugh and your lullaby wine  
It's a long lo-ong time till the end of time  
With so much to do makin' sweet love to you

Let me be the one when the day is done  
To share your laugh and your lullaby wine  
It's a long long time till the end of time  
With so much to do makin' sweet love to you (fade)
