

You've Got Me To Hold On To

Anne Murray

Don't it make life just a little more special knowin' you've got
someone who cares
You won't ever have to be lonely always have somebody there
Don't it make everything a little bit easier knowin' you have
someone like me
A hand to take you to the light when it gets a little bit too
dark to see
That's when I like to stop and remind you
You've got me to hold on to baby oh you've got me to hold on to

Yes and don't it make every chance worth taking even when you
try and fail
Don't it make all the pain worth aching look around and find
somebody there
Oh don't it make everything a little bit easier
I've got you I've got you

High and low happy or sad you know I'm gonna be right there
Sharin' your smiles dryin' your eyes anytime and anywhere
Cause you've got me to hold on to oh you've got me to hold on to
baby
Cause you've got me to hold on to honey
