You've Got Me To Hold On To

Anne Murray

Don't it make life just a little more special knowin' you've go t someone who cares

You won't ever have to be lonely always have somebody there Don't it make everything a little bit easier knowin' you have s omeone like me

A hand to take you to the light when it gets a little bit too d ark to see

That's when I like to stop and remind you

You've got me to hold on to baby oh you've got me to hold on to

Yes and don't it make every chance worth taking even when you try and fail

Don't it make all the pain worth aching look around and find so mebody there

Oh don't it make everything a little bit easier I've got you I've got you

High and low happy or sad you know I'm gonna be right there Sharin' your smiles dryin' your eyes anytime and anywhere Cause you've got me to hold on to oh you've got me to hold on to o baby

Cause you've got me to hold on to honey
