

Stay

Anneke van Giersbergen

Hey, turn around, I was just in the middle of a sentence
Hey you, what were you thinking not to grant me the time
of day

If you stay, I'll wait
But you know if I gotta go, I'm gonna take you with me
If you stay, I'll wait
But you know if I gotta go, I'm gonna take you with me

If you stay, if you stay, I will wait

I am your friend, confidant
I am there in times of trouble
But you take me for granted
It's time to snap out of your dream

If you stay, I'll wait
But you know if I gotta go, I'm gonna take you with me
If you stay, I'll wait
But you know if I gotta go, I'm gonna take you with me

If you stay, if you stay, I will wait

Wait up, didn't you see me?
Look up, haven't you noticed me, trying to be
Your perfect friend?

If you stay, if you stay, I will wait
