

# You Will Never Change

Anneke van Giersbergen

Oh, you know, you did,  
You didn't even tease me,  
Or tried, or tried to deceive me,  
You did, you didn't even let me down.  
Oh, you know, you did,  
You didn't even blame me,  
No, no, not over-imitate me,  
You could, you couldn't even freak me out.

Oh, just get up and go now,  
I don't even care how:  
You will never change.  
Oh, just leave me alone now.  
You really have to go now  
Before I go insane.

Oh, you know, I wish,  
I wish you would have touched me,  
Or take, take the time and watched me.  
You did, you didn't have to let me down.  
Oh, you know, I wish,  
I wish I could believe you  
When you would tell me, "Girl, I love you",  
And now, and now you just freak me out.

Oh, just get up and go now,  
I don't even care how:  
You will never change.  
Oh, just leave me alone now.  
You really have to go now  
Before I go insane.

Can't blame me, can't see me,  
Can't feel my in heart all you could see.  
Can't break me, can't leave me,  
All my shame tells no lies.

Oh, just get up and go now,  
I don't even care how:  
You will never change.  
Oh, just leave me alone now.  
You really have to go now  
Before I go insane.

Oh, just get up and go now,  
I don't even care how:  
You will never change.  
Oh, just leave me alone now.  
You really have to go now  
Before I go insane.
