

One Love

Annie Haslam

I saw you on the screen
You stole my heart
The moment spellbound me
You played your part
I was breathless as you spoke to me
I rehearse my lines tonight
For you're my

One love you are my one love
Gone love over my head goes my heart
One love you are my one love
Gone love over my head goes my heart

Falling for you

You take me in your arms
Your eyes meet mine
I live each tender kiss
A million times
You're no ordinary fantasy
All my hopes will come alive
For you're my

Falling for you

You swept in and touched my soul
Will you ever know
Unreal though it seems
I love you so

One love
