

Seasons

Annie Haslam

Sounds around me, thoughts before me call to you
Sky above me, water near me reflect you
Dreams of our oneness altered by time
Seasons will change for us all
For us all

Springtime, summer, winter, fall
Springtime, summer, winter, fall with you

Magic grace bestows the place I long to be
Deep inside my heart is high, so come to me
Thinking and rethinking in moments of despair
Worries not needed will fade - with you
Always

Springtime, summer, winter, fall
Springtime, summer, winter, fall with you

Springtime, summer, winter, fall ... seasons will change for us
all
Springtime, summer, winter, fall ... seasons will change for us
all
With you

Springtime, summer, winter, fall ... seasons will change for us
all
Springtime, summer, winter, fall ... seasons will change for us
all
With you
