

Big Sky

Annie Lennox

Big sky
I'm gonna hurt you
Big sky
You'll remember this
Big sky
Up above the rain
How can I ever put a stop to it?
Look you in the face again

Big sky
I'll never let you go
Big sky
Baby I told you so
Big sky
Look at this swollen pride
I got so busy lookin' out for you
When were you by my side?

When I'm breathin'
When I'm sleepin'
I can't think of nothing else
All my longin'
All my waitin'
All my wailin'
All my standin' on the shelf
How am I ever gonna get through this
Back to myself again?

Big sky
I never knew you
Big sky
Let me down again
Big sky
I'm givin' you the blame
How did I ever get stuck in this?
Give me some grace again

Won't you say it isn't so?
Watch me fallin'
See me fallin'
I slipped through
The vortex of the sky
Darkness and light
Is what's inside
Darkness and light
Is what's inside
