

Back Together

Annie

Don't give up when you feel you are far away
You can lose yourself in the sound like it's yesterday
When the world won't stop and it gets too loud
We can drown it on, we can turn it round
When the music high we can sing alone,
Bring us back in time, to what we love.

Uh uh uh uh uh uh
Bring us back together, back together
Uh uh uh uh uh uh
Bring us back together, back together
When we need it most, it will bring us close
He's what we all belong
When we need it most, it will bring us close
He's what we all belong
Don't give up, don't believe it could ever change
You're not alone and everybody it feels the same
When the world won't stop and it gets too loud
We can drown it on, we can turn it round
When the music high we can sing alone,
Bring us back in time, to what we love.

Uh uh uh uh uh uh
Bring us back together, back together
Uh uh uh uh uh uh
Bring us back together, back together
When we need it most, it will bring us close
He's what we all belong
When we need it most, it will bring us close
He's what we all belong
Keeps us together and keep us strong
When we're together music plays on and on.

When we ahh, when we ahh
When we ahh, when we ahh
When we need it most, it will bring us close
And he's what we all belong
