

25 Seconds

Annihilator

No one to help me, I can't explain
No one to make a translation
Where do I go, what do I do
So tired and full of frustration

25 seconds to die
(You gave him)
25 seconds to die

Where is my mother, I cannot see
I break this table and chair
Whipped into frenzy, I cannot think
Why doesn't anyone care

No one took the time to evaluate
No physical force, no pepper spray
Four on one with a tazer gun
Fifty thousand volts deliver pain

Convulsing, but shot again
Excessive force has been applied
No pulse, the heart has stopped
No attempt to revive

The fault of police, security
The YVR and immigration
The airline, travel agency
A disgrace to the nation
