

## Alison Hell

Annihilator

Alice, isn't it frightening?  
Alice, aren't you scared?  
Alice, isn't it wonderful?  
Living life afraid  
Don't look around the corner  
I might be lurking there  
Under the bed at night  
You're up till dawn again

Alison hell, your mind begins to fold  
Alison hell, aren't you growing cold?  
Alison hell, you are looking blue  
Alice in hell, what else can you do?

Alice

I begin my rule, life hideous in your mind  
Crying out, you've lost your doll  
It isn't worth a dime

Alison hell, your mind begins to fold  
Alison hell, aren't you growing cold?  
Alison hell, what are you looking for?  
Alice in hell, soon i close the door

Sitting in the corner, you are naked and alone  
No one listened to your fears, you've created me

Alice, isn't it frightening?  
Alice, aren't you scared?  
I was killed at birth  
I shoot this final scene  
You're in the basement  
You're trapped insanity

Alison hell, what were you looking for?  
Alison hell, as i close the door  
Alison hell, here you shall dwell  
Alison hell, Alice dwells in hell

Alice

Alice  
Alison  
Alice  
In hell

Goodbye
