

## Chasing the High

Annihilator

Waking up to face another nightmare day  
Blood drips from the mouth, my teeth decay  
Deep depression is coming on fast  
Got to get me my crystal breakfast

High, chasing the high  
Die, chasing the high

High anxiety, panic setting in  
Will do anything to get the sin  
Sunlight burning my eyes gotta fill the need  
Methamphetamine, it's time to feed

Dying to feast  
The monster is fed  
Call for the priest  
One more is dead

The chemical injection, rushing through the vein  
Speeding up the system and burning up the brain  
Powered and invincible, the pain is at an end  
High above, so beautiful, the demon rides again

Cycle starting over but it's too late  
Try it just one time, it seals your fate  
Deadly consequences, you can't go back  
Life is gone, a heart attack
