A new day lies before me
And something doesn't seems to be the same
My life's so full with so much dark affection
I realize I'm the only one to blame
Fantastic things speaking to me
I've opened my eyes to the new reality
The pain I've known, slowly fade away
Fantastic thing speaking to me
Lost in a endless dream

This feelings I didn't show
Brief the confusion
Will I can daily those just eating away
Theres so much in life I need to know

Just look around and listen, the tales of agony
The season of my life this time, is seted free
