

Hell Is A War

Annihilator

Hiding in the darkness, sheltered from the rain
My mom and dad are gone now, I'm alone again
Is anybody out there?
Does anybody care?
I don't wanna live here anymore
I don't wanna live

See the people suffering,
Watch the children die
Doesn't it make you wonder why?
Money and power, the television's red
One by one, they collect the dead

Hell is a war
Hell what is it for?

They'll slay the innocent and every mothers son
To get the ethnic cleansing done

Hey, master politician, what are you gonna do?
This nightmare's up to you

Hell is a war
Hell what is it for?
Hell is a war
Hell waht is it for?

See the people suffering
watch the children die
Doesn't it make you wonder why?
Money and power, the television's red
One by one, they collect the dead

Hiding in the darknes
sheltered from the rain
My mom and dad are gone now
i'm alone again
Is anybody out there?
Does anybody care?
I don't wanna live here anymore
I don't wanna live
