

## Hell Is A War

Annihilator

Hiding in the darkness, sheltered from the rain  
My mom and dad are gone now, I'm alone again  
Is anybody out there?  
Does anybody care?  
I don't wanna live here anymore  
I don't wanna live

See the people suffering,  
Watch the children die  
Doesn't it make you wonder why?  
Money and power, the television's red  
One by one, they collect the dead

Hell is a war  
Hell what is it for?

They'll slay the innocent and every mothers son  
To get the ethnic cleansing done

Hey, master politician, what are you gonna do?  
This nightmare's up to you

Hell is a war  
Hell what is it for?  
Hell is a war  
Hell waht is it for?

See the people suffering  
watch the children die  
Doesn't it make you wonder why?  
Money and power, the television's red  
One by one, they collect the dead

Hiding in the darknes  
sheltered from the rain  
My mom and dad are gone now  
i'm alone again  
Is anybody out there?  
Does anybody care?  
I don't wanna live here anymore  
I don't wanna live
