Hiding in the darkness, sheltered from the rain My mom and dad are gone now, I'm alone again Is anybody out there?

Does anybody care?

I don't wanna live here anymore
I don't wanna live

See the people suffering,
Watch the children die
Doesn't it make you wonder why?
Money and power, the television's red
One by one, they collect the dead

Hell is a war Hell what is it for?

They'll slay the innocent and every mothers son To get the ethnic cleansing done

Hey, master politician, what are you gonna do? This nightmare's up to you

Hell is a war Hell what is it for? Hell is a war Hell waht is it for?

See the people suffering watch the children die Doesn't it make you wonder why? Money and power, the television's red One by one, they collect the dead

Hiding in the darknes sheltered from the rain My mom and dad are gone now i'm alone again Is anybody out there? Does anybody care? I don't wanna live here anymore I don't wanna live
