

# Human Insecticide

## Annihilator

Psychotic tendencies have put me here for life  
Dreams of smashing little things  
Before they ruin my life  
Find means capable of smothering a flea  
Extermination is their end  
Escaping not from me

Retaliate  
Decapitate  
I love to see them bleed  
Annihilate  
I am human insecticide

Creepy black mass  
I see one down below  
Prepare to strike, act quickly now  
Strike the fatal blow  
Extinguishing the menace  
They will know my name  
Destroying these, the lives of waste  
Delivered now to pain

Retaliate  
Decapitate  
I love to see them bleed  
Annihilate  
I am human insecticide

Asphyxiate the flame of life  
From hatred they will die  
Power kept in my control  
Their souls are caged with mine

Expelled from life, they cannot hide  
I will find them out  
Their game's lost, I hunt them down  
Their end without a doubt  
Psychotic tendencies  
My dreams are coming true  
My plans are set without repent  
I'm tightening the screw

Retaliate  
Decapitate  
I love to see them bleed  
Annihilate  
I am human insecticide
