

## Misty Coy

Annuals

Light me up, light my cigarette  
Tell you that I've wanted to been there  
With him  
Do you want to explain by me  
Do you want the blame?  
Well I can give it to you

(Everything is nothing, nothing is everything)

The pole cat snaps  
The sparrow from his mama's nest  
What papa brings is one for no one  
For no one  
The crick crack stamps  
Up to my daddy's lap  
Tell you what he's for  
Where I'm going to stay  
If you catch me

(There is nothing I wanna do,  
There is no where I wanna go,  
Just leave me the fuck alone. Noo)

Well there is something in them hills that sticks to me  
Baby boy, find your family  
Still there's something in them hills that sticks to me  
Misty Coy, you're my family.

Misty Coy  
Don't you die on tomorrow's day
