

Find A Way

Another Animal

I feel the rain clouds burst
But it won't quench my thirst
I just keep ridin'
Feels like I'm slidin' down

You're in your empty space
Between the blind and fake
Cannot resist her
But I'm tryin'

Forgive me for fallin'
Find me a way
I live and die for it
Find me away

You've caused the sun to fade
I've caused the ground to shake
You're in my way
I know you're lyin'

This life you've made
You need to throw away
I'm being played
There's no denyin'

Forgive me for fallin'
Find me a way
I live and die for it
Find me away

You've let me down my friend
Don't let my dreams descend
You've got to compromise
Dig further deep inside

Forgive me for fallin'
Find me a way
I live and die for it
Find me away
