

Any Younger

Anouk

Years flew by of the wicked life
Time is running out
I'm a falling star, in a big ass car
Born to stand out
Yeah I got old, but never got wise
So much to be done
It's a mirror, mirror on the wall
Said the downfall is gonna come
Now let's go

Come, and dance, and party
Cause we're not getting any younger
We're not at all getting fat
Come, and dance, and party
Cause we're not getting any younger
We're not at all getting fat, noo noo

Now you're finally grown, live a lie of your own
Learn how to give and take
Though your body doesn't move like it did before
Your reputation is at stake
Don't you be sad, don't be afraid now
Don't be afraid of what you become
No more confusion with the loves and illusion
When you end up all alone
Now sing along now

Come, and dance, and party
Cause we're not getting any younger
We're not at all getting fat
Come, and dance, and party
Cause we're not getting any younger
We're not at all getting fat, nooo

When it comes to dancing baby
We know how to twist and jive
Let me work and make me crazy
We're on our way to paradise
Tell me what you're waiting for
Get on the floor now, bag it up
Cause we don't really wanna know
The weight we'll in and how we all will go

Come, and dance, and party
Cause we're not getting any younger
We're not at all getting fat
Come, and dance, and party
Cause we're not getting any younger
We're not at all getting fat, nooo

Come and dance the night away
