

Fluid Conduction

Anouk

I've been sleeping all day
Slummin' all night in a 44 hour sedation
Since the day you cut me out of your life
The night I killed your patience

Always tried to lie to you
The truth is that I love you
I need you more than anything
Without you I discover, I'm a maniac and a menace
Headin' for destruction

Your lips, I miss your tears your hips your piss your blood
The way you function
Maybe I should thank some god for your
amazing fluid conduction

It was max, the king of facts
He made me steal your number
I promised not to tell on him
But you know me I'm a sucker

Always tried to lie to you
The truth is that I love you
I need you more than anything
Without you I discover, I'm a maniac and a menace
Headin' for destruction

Your lips, I miss your tears your hips your piss your blood
The way you function
Maybe I should thank some god for your
amazing fluid conduction
Your kiss, I miss your tears your fingertips my satisfaction
I swear that I could thank some god for your amazing fluid conduction
