

## Little Did I Know

Anouk

Thinking of when we were younger  
(A long long time ago)  
On the roof where we made out (oehh)  
You told me secrets 'cause you knew that  
I'd keep it

Nowadays I feel so tired  
(I really don't understand)  
Of all the things you do and say (oehh)  
Will you be just a reminder  
Of what we've lost on our way

Can I say something  
Baby, I am wishing on the stars above  
That your eyes will finally open up  
'Cause there was nothing  
Enough to make another part of me believe  
That you headed me blind not to see that  
This was love, this was love

When I hear you tryin' call me  
(In the middle of the night)  
I won't answer, 'cause I'm scared (oehh)  
That I rather had you with me  
As I

I never thought of me without you  
(Of me living alone)  
You turned yellow in to grey (oehh)  
Do you know how long I waited  
For you to come my way

Can I say something  
Baby, I am wishing on the stars above  
That your eyes will finally open up  
'Cause there was nothing  
Enough to make another part of me believe  
That you headed me blind

Ooh, an I say something  
Baby, I am wishing on the stars above  
That your eyes will finally open up  
And there was nothing  
Enough to make another part of me believe  
That you had me blind not to see that  
This was love, my love
