

No Time to Waste

Anouk

I've got time to think about
The things you think about when
You've got time to spare
Wonder why we're here

I wonder when or where it might go wrong
I wonder why I went along with you
Why I forgot to think
Forgot to think it through now

I wonder why I
I wonder why

You go on pushing yourself
You keep on fooling yourself
You don't know why, you don't know
You don't know howm you just don't know
You keep on, I keep on fooling myself

There's a time and place for everything
A time to act, a time to dream
There's time to wait
But no time to waste

I wonder why I
I wonder why

You go on pushing yourself
You keep on fooling yourself
You don't know why, you don't know
You don't know howm you just don't know
You keep on, I keep on fooling myself
