

# Not a Lovesong

Anouk

This is not a love song  
Cause my love is blind  
It's just another sad song  
In this life of mine  
There is no room for a love like this  
Free and wild at night  
No, this is not a love song  
I couldn't read your mind

I remember how you felt the first time  
The way it used to be  
I missed the days you'd call just to say hi  
Oh, why can't you see?

Baby, I have been waiting for you  
You are halfway in my head  
Until I heard that you wanted me too  
You left me wasting at the end

This is not a love song  
There is no pretend  
It's just another dull song  
[?]  
And after all this time of growing apart  
See that dream is gone  
No, this is not a love song  
It's so hard to move on

I remember how you felt the first time  
The way it used to be  
I miss the days you'd call just to say hi  
Oh, why can't you see?

Baby, I have been waiting for you  
You were halfway in my head  
Until I heard that you wanted you too  
You left me wasting at the end

This is not another love song  
Just another sad song  
This is not another love song  
This is not another love song

This is not a love song  
It's just another sad song  
This is not a love song  
This is not another love song  
It's just another sad song  
This is not another love song  
This is not another love song  
Just another sad song  
This is not another love song  
This is not a love song  
This is not another love song  
This is not a love song
