

Some of Us

Anouk

Hell begins all in the mind and so you pray for inner light
I know you feeling left behind
But please, don't say that nothing's ever right!

'Cause every now and then somebody would just come along to take you
Out of the light,
Don't try to make them love you,
Never cherish wrong thoughts
Don't criticize,
The some of us ain't got no joy,
They ain't got no love
Yeah they ain't got no life!

Heaven is what you create, just think something good
And you begin to rise
And don't look back at yesterday
It's understood that if you seek, you'll find

'Cause every now and then somebody would just come along to take you
Out of the light,
Don't try to make them love you,
Never cherish wrong thoughts
Don't criticize,
The some of us ain't got no joy,
They ain't got no love
Yeah they ain't got no life!

I feel for them, yeee-eeeh
Yeah I feel for them, yeee-eeeh
I feel badly for them
'Cause they're missing out on life
They're missing out on life
That's no life, that's no life
No life!
