

# The Black Side of My Mind

Anouk

The black side of my mind is getting weaker  
The black side of my soul is getting white  
This time i'll try and dig a little deeper  
So I can change the wrongs into what's right

Dark were the days when our light was gone  
Those were the days when fear of death came along  
Let us get rid of this  
Dark were the nights when I did not fight  
Those were the nights when dark told me what's right

I did it all for love  
Well havent't I had enough?

Leave it alone because in time

The black side of my mind is getting weaker  
The black side of my soul is getting white  
This time i'll try and dig a little deeper  
So I can change the wrongs into what's right

Walking away with nothing but pain in my heart for what we've lost  
Try to stand tall with my head held high  
Dark makes it hard for you to see  
I gave it all for you and me  
In time I will be ready to believe

The black side of my mind is getting weaker  
The black side of my soul is getting white  
This time i'll try and dig a little deeper  
So I can change the wrongs into what's right

Dark were the thoughts running through our minds  
Those were the thoughts dragging me further down  
What will you do for love  
When is it ever enough

Leave it alone because in time...
