

The Good Life

Anouk

Time's ticking and it's crawling forward
Turns boys into men, it's awkward
The good life
Time to live and a time to die
A time to fall and a time to fight
The good life
Every word is just another lie
I wonder why I do even try
I'm wishing that someone was near me now
Letting me know I'm OK, that I'll survive

Take me back ten years ago
And I thought I lived the dream
My heart had been longing for
Tik Tok, so many changes
Going through all the stages
The good life

A time to hate and a time to love
Time makes me wait for God
The good life
Got no future
It's scaring me
So now this is all
That I can be
Instead of making a fast ride
And trying to make this harm
come undone

Take me back ten years ago
When I thought I lived the dream
My heart had been longing for
'Cause the time does not forget
What I was made for
So follow the stars
Without too many regrets

Time's ticking and it's crawling forward
The good life
It's the good life
