

# Too Long

Anouk

You ask me what is on my mind  
You notice there's a change  
There's something different  
Different in the way I look at you today  
You see I have been alone for so long baby  
Now I cannot explain

I must be completely out of my mind  
To ever take the chance  
I ain't got no trouble still I worry  
That I might have to lose you  
See I've been alone for so long baby

Now I cannot explain, I've been alone for so long  
I took the chance to lose you  
No I must be insane, I've been alone for so long  
I'm not gonna lose you

I never ever really tried  
I never had the strength  
But now I got you, I got you by my side  
I'm gonna make this work  
You see I've been alone for so long baby

Now I cannot explain, I've been alone for so long  
I took the chance to lose you  
No I must be insane, I've been alone for so long  
I'm not gonna lose you

All the things I've done when I was alone I can't understand my  
self  
It's amazing, you amaze me  
But my life begins with the song I sing and the love you bring  
to me  
It's amazing, you amaze me
