

# The Silent Divide

Anterior

When I tread the verge of Jordan  
Lost within the hope of freedom  
Not for control  
But in light of our cause

Bid my anxious fears  
Will subside  
With another death, in another

Rise up  
This age of silence  
A god with a quick fix of

Annihilation  
Pulling on  
These two words: Apathy, Sacrifice

Awakened soul  
Look fourth and see  
Ungodliness rip open me  
For all I have contempt for greed  
Death of deaths  
No fears I see

End of days  
And Hell's destruction  
Land me safe on Canan's side  
Grind me down  
This fearless soul

Manifest my darkest destiny  
Divinicate  
For the untold

My heart  
Inside  
Behold  
The Silent Divide

I'll see you at the top  
On judgement day  
Because a lie burns twice as bright

Breathe  
As the light begins to  
Fade to exist in my will I  
Bleed  
Blood of redemption  
Save  
Broken still I stand alone

Come to pass the hour of Jordan  
Liberation now  
Within these walls  
As they echo control

Above I stand this prospect

No abate  
In another death  
For another life

Awakened soul  
Look fourth and see  
Ungodliness rip open me  
For all I have contempt for greed  
Death of deaths  
No fears I see

My heart  
Inside  
Behold  
The Silent Divide
