

# Fight Forever

## Anthem Lights

There's a war we're fighting  
On the front line for our King  
It's a battle for our souls  
Against a heartless enemy

Let us rise soldiers  
United by the call  
We give nothing less than all  
We might stumble, we might fall

But we won't raise that white flag  
We won't run or turn back  
We will hold on and never surrender  
We'll be strong and courageous  
'Cause nothing can break us  
We'll fight for the King of Forever. Forever.

So let us join with the angels on the battlefield tonight  
There's no line between the nations  
When you're on the winning side

From the left to the right  
From the black to the white  
From the south to the north  
From the rich to the poor  
We are one voice, one force

But we won't raise that white flag  
We won't run or turn back  
We will hold on and never surrender  
We'll be strong and courageous  
Cause nothing can break us  
We'll fight for the King of forever, forever

Our King has won the war  
He reigns forevermore  
Alleluia, Alleluia

Our King has won the war  
He reigns forevermore  
Alleluia, Alleluia

Our King has won the war  
He reigns forevermore  
Alleluia, Alleluia

We won't raise that white flag  
We won't run or turn back  
We will hold on and never surrender  
We'll be strong and courageous  
Cause nothing can break us  
We'll fight for the King of forever, forever

Our King has won the war  
He reigns forevermore  
Alleluia, Alleluia

Our King has won the war  
He reigns forevermore  
Alleluia, Alleluia

Our King has won the war  
He reigns forevermore  
Alleluia, Alleluia
