

Hide Your Love Away

Anthem Lights

I don't know your name... yet
I've never even seen your face
I'm looking with my eyes wide open
Til I find you in the right time and place

Hide your love away
And wait for me, wait for me
I will do the same
Wait for me, wait for me
There will come a day
When i will finally say
Staring in your eyes
I've waited my whole life... for this night

Every day you're prayed for
And I'm dreaming of you every night
Where ever you are right now
You're already the love of my life

So hide your love away
Wait for me, wait for me
I will do the same
Wait for me, wait for me
There will come a day
When I will finally say
Staring in your eyes
I've waited my whole life... for this night

I'm holding on for you
My heart belongs to you
You're everything that I adore
I'm holding on for you
My heart belongs to you
Darling your love is spoken for

Hide your love away
Wait for me, wait for me
I will do the same
Wait for me, wait for me
With every breath you take
Wait for me, wait for me
I will do the same
Wait for me, oh, wait for me
There will come a day
When finally I say
Staring in your eyes
I've waited my whole life
Staring in your eyes
I've waited my whole life
For this night

I don't know your name... yet
